

Frontend Developer

White Lioness technologies

WHITE LIONESS IS LOOKING FOR A FRONTEND DEVELOPER

Who we are

White Lioness technologies is a young and innovative company which is 2.5 years old and develops innovative solutions for the designing, engineering, manufacturing and constructing industries. We develop a platform called Packhunt.io which helps our clients to (re)use (technical) information and knowledge. We are active in areas, such as 3D printing, machine learning and information systems.

We are an energised and hardworking team consisting of 14 people. We have in common that we are ambitious and fascinated by technology. We are quite young on average and believe that personal development and learning is important to build the best team in the world. Beside technology we are passionate about organising team events and our daily lunches together.

Are you interested? We welcome you in our office along the IJ river in the city centre of Amsterdam.

What you will be doing

As a frontend developer at White Lioness technologies you will be responsible for the development and implementation of the UI of interactive websites and webapps, while working in our development team in close and direct cooperation with our other teams, like product management, marketing, etc. As the market is continuously changing you will work in an agile and test driven way with short iterations, in close collaboration with the backend developers. This means brilliant ideas, using the most innovative technologies, and excellent skills in making simple, beautiful and effective webapps, hard work and a lot of fun!

We are looking for someone...

- with a solid understanding of HTML5, CSS3 and Bootstrap and knowledge of AJAX, JavaScript and JavaScript Frameworks (Angular, jQuery). Specialities like test driven development, frontend architecture, design patterns, application infrastructure are a cherry on top;
- who has experience building dynamic and responsive websites and webapps;
- who writes well-designed code, always pleasing for other developers to read and easy to understand;
- who works well with other developers, designers and those from other teams;
- who wants to get even better, likes sharing ideas and knowledge and has a passion for learning new technologies.

What we offer:

- a full-time job in a dynamic and friendly start-up environment and a fair salary (dependent on experience) in the city centre of Amsterdam;
- ongoing education - we continuously invest in you to ensure you have everything needed to excel on the job and enhance your skills;
- a friendly, open minded and collaborative team;
- monthly knowledge sharing sessions;
- Start date: as soon as possible depending on your current situation.

Are you curious? Please forward the following to letstalk@white-lioness.com:

- Resume;
- Brief description of you, your experience and why you are the right fit;
- Some examples of your work.

If you have any questions about the job, we are happy to answer them!
